

RL-OBC

 **RACKTEL**

Krone knife

Knob for adjusting impact force

Dual-function blade

RL-OBC	
material	metal, plastic
weight	0,1kg [+/-]

A spring-loaded tool for terminating twisted-pair cable in patch panels, connection blocks and trapezoidal sockets. The device is equipped with a dual-function blade (cut/punch) for cutting the cable or pushing it into the IDC terminal. It has a knob for adjusting the impact force, allowing you to adjust the spring force.
