

RL-PFWDPX24

 **RACKTEL**

PoE switches

RL-PFWDPX24	
external dimensions	430 x 259 x 42 mm [+/- 2]
size	1U
ports	24 duplex ports
weight	2,3kg [+/-]

PoE switches is a device used to manage and organise fibre optic connections in telecommunications and computer networks. The switch allows for easy connection and switching of fibre optic cables, keeps them in order and ensures more efficient network operation. It is installed in standard 19" racks.
